

Kyoto-Zurich Workshop in Plant Science 2021:

Recent developments in fundamental and applied plant molecular biology

December 6th and 13th, Monday

17:00 – 19:30 (JST)

Zoom Online Meeting

Maskawa Hall @ Kyoto University

(Booking required)

Presenters:

From University of Zurich, Switzerland

Ueli Grossniklaus (Plant Development Genetics)

Beat Keller (Molecular Plant Biology / Phytopathology)

Anna-Liisa Laine (Ecology and Evolution of Species Interactions)

Verena Schuenemann (Paleogenetics)

Kentaro Shimizu (Evolutionary and Ecological Genomics)

Thomas Wicker (Molecular Plant Biology / Phytopathology)

Cyril Zipfel (Molecular and Cellular Plant Physiology)

From Kyoto University, Japan

Yuji Isagi (Laboratory of Forest Biology)

Takayuki Kohchi (Laboratory of Plant Molecular Biology)

Hiroshi Kudoh (Center for Ecological Research)

Shuheii Nasuda (Laboratory of Plant Breeding)

Yoshitaka Takano (Laboratory of Plant Pathology)

Ryohei Terauchi (Laboratory of Crop Evolution)

Shohei Yamaoka (Laboratory of Plant Developmental Biology)

Kentaro Yoshida (Laboratory of Plant Genetics)

Organizers: Shuheii Nasuda, Kentaro Shimizu

Designed by Ami Hashimoto

University of
Zurich^{UZH}
