

2024.11.23 Sat 13:00 ~ 17:30

※including tea break

VENUE | Chamleon Rajakumari 60 Building [Chamchuri10]
(Chulalongkorn University Related Facilities)

Seminar on Japan-ASEAN Co-learning Future Vision on Collaboration between Public Sector and Private Sector in Civil Engineering Practices

In recent years, public-private partnerships have become more active in the development of infrastructure for electricity, transportation and water resources management etc. in ASEAN countries as well as in Japan. In the current situation, however, there is no common understanding regarding the desirable form of public-private collaboration. As both Japan and ASEAN face a growing shortage of human resources due to the declining birthrate and aging population, public-private partnerships in the development of public infrastructure will become increasingly important in the future.

From this background, this seminar aims to provide a forum for government, private sector and university officials from Japan and ASEAN to gather together and discuss the current situation and future vision of public-private partnerships in the development of public infrastructure from both public and private perspectives.

Co-organizers

- International Internship Industry-academia-government Consortium KANSAI
- Kyoto University ASEAN Center
- International Course Program of Civil Engineering, Kyoto University
- Civil Engineering Department of Chulalongkorn University
- Risk and Disaster Management (RDM) Program of Chulalongkorn University
- Center of Digital Asset Management for Sustainable Development, Chulalongkorn University

Program

13 : 00

Opening Address

Director, Kyoto University ASEAN Center

Prof. Eiichi Nawata

Distinguished Scholar in Water Resources Management,
Chulalongkorn University

Prof. Sucharit Koontanakulvong

13 : 10

Presentation①

13 : 40

Strategies for PPP/PFI Promotion in Japan and Infrastructure System Overseas Promotion

Director of Engineering Affairs Division, Minister's Secretariat,
Ministry of Land, Infrastructure, Transport and Tourism, Japan

Director, Akihisa Okuda

13 : 40

Presentation②

14 : 10

The 6P Strategic Framework towards Partnership for Sustainable Water Resources Management in the Face of Changing Climate

Senior Expert of National Water Resources Committee (Thailand)/
Senior Expert of Thai National Mekong Committee

Dr. Somkiat Prajamwong

Tea Break

14 : 20

Presentation③

15 : 00

PPP/PFI Projects by Maeda Corporation in Japan

Maeda Corporation

Mr. Seiji Kawakami

Development of floating offshore wind power
generation facilities and Approach in Goto Islands

Toda Corporation

Mr. Hirofumi Imabayashi

15 : 00

Presentation④

16 : 00

Mainstreaming Community Participation Focusing on Distributional Socio-Economic Impacts and Climate Adaptation for Resilient Flood and Drought Risk Management Directive

Associate Professor, Department of Water Resources
Engineering, Faculty of Engineering, Chulalongkorn University

Prof. Aksara Putthividhya, Ph.D.

Community Based Geohazard Risk Reduction:
Case Study of Highland, Thailand

Researcher, Professional Level, Environmental Research
Institute, Chulalongkorn University

Dr. Puntita Tanwattana

Tea Break

16 : 20

Panel Discussion

17 : 20

Future Vision on Collaboration between Public Sector and Private Sector

Moderator

Professor, Kyoto University

Prof. Masamitsu Onishi

Panelist

Professor Emeritus, Kyoto University

Prof. Hiroyasu Ohtsu

Professor, Chulalongkorn University

Prof. Sucharit Koontanakulvong

Director of Center of Digital Asset Management for
Sustainable Development, Chulalongkorn University

Prof. Veerasak Likhitruangsilp

Professor, Asian Institute of Technology

Prof. Noppadol Phien-wej

Professor, Kasetsart University

Prof. Suttisak Sorarlump

17 : 20

Closing Remarks

Prof. Noppadol Phien-wej

Prof. Hiroyasu Ohtsu
