

DNA for ECRs

Doitsu-Nihon Academy for Early Career Researchers
powered by DAAD and Kyoto University

November 11-12, 2022

Held in person at the German Cultural Centre, Tokyo

▪ **Networking & Collaboration in Global Science**

Language: English

Register by Wednesday, October 26, 2022!

Who can participate?

German DAAD scholarship students in Japan
& Kyoto University students (BA to PhD) interested in Germany

Organizers

In cooperation with

IRIS INTERNATIONAL
RELATIONS
IN SCIENCE

DNA for ECRs

November 11-12, 2022

Program

at Kyoto University

Friday

- 14:30-14:45 Registration
- 14:45-15:00 Welcome & Introduction
- 15:00-19:00 Workshop

Saturday

- 10:00-12:00 Workshop
- 12:00-13:30 Lunch Break*
- 13:30-15:30 Workshop

*lunch is included for all participants who wish to join

Trainer: Dr. Iris Wiczorek

A German expert on academic career development and research management with nearly 30 years of experience in Japan. She has been the founding director of the Japan Office of the German Research Foundation (DFG), founded IRIS Science Management Inc. in Tokyo, and serves on various Japanese research policy committees.

Expected Commitment:

Participation in the full program is required and last-minute cancellations are only allowed in case of emergency or illness. Seats are limited to seven each for DAAD and Kyoto University. You will be contacted by Dr. Iris Wiczorek in advance with some questions in order to prepare for the workshop.

Networking & Collaborating in Global Science

Of all roles an early career researcher must play, perhaps the most important is being an expert networker. Sources stress that making connections with colleagues in and out of their peer research group, maintaining those contacts, and always striving for broadening the network is the key to a scientific career and to securing financial backing of projects. Moreover, in today's era of "global science" it is important to collaborate internationally in order to be successful.

Through our seminar you will learn basic skills for effective networking, acquire skills for intercultural understanding and for managing international teams.

Agenda (* will be adapted to the needs of the participants)

- Why & How to Network Effectively
- Building Your Global Career Network
- Time to Reflect: Your Visibility in Global Science
- Getting Involved in Global Research
- Working with Diverse / International Teams
- Tools & Resources
- Your Next Steps?!

Workshop contents created by IRIS Science Management Inc.
